GUIDE TO SERIALS LISTED IN THE MONTHLY INDEX OF RUSSIAN ACCESSIONS
VOLUME 21, APRIL 1968-DECEMBER 1968

Serials are listed in the form established by the Library of Congress. It should be noted that this is a guide to the *Monthly Index* and does not necessarily represent holdings of the Library of Congress, since some serials listed have been reported by other libraries but not received by the Library of Congress. On the other hand, issues not listed in Volume 21 may be received by the Library of Congress at a later date. Each serial number is followed in parentheses by the page of the *Monthly Index* on which it was listed. The letters "a," "b," "c" after the page number indicate the left-hand, center, and right-hand columns of the page, respectively.

IN THIS ISSUE:
ANNUAL AUTHOR INDEX TO MONOGRAPHS

Monthly Index *of* Russian Accessions

Volume 22, No. 2

February 1969

THE LIBRARY OF CONGRESS
WASHINGTON : 1969

INTRODUCTORY NOTE

The MONTHLY INDEX OF RUSSIAN ACCESSIONS* is a record of the publications in the Russian language issued in and outside the Soviet Union that are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, publications printed in other languages spoken in the Soviet Union are also included.

The MONTHLY INDEX consists of four parts. Part A lists monographic literature, but no accessions published earlier than 1960 are included. To facilitate the use of this INDEX by readers who are not thoroughly familiar with the Russian language, the title in the original language in Part A is preceded by its English translation in brackets.

Part B lists Russian periodicals received, but excludes accessions printed earlier than 1960. Tables of contents in English translation are provided for most periodicals listed.

Part C provides subject analysis of the articles appearing in the periodicals enumerated in the *List of Periodicals Indexed and Abbreviations Used* at the beginning of Part C. The number and letter in parentheses following each abbreviation indicate the class and subclass in which the periodical appears in Part B.

Sample title: Some data on lung-to-heart reflexes in amphibians. A. E. Alekseev. *Biul. eksp. biol. i med.* 54 no. 12: 18-22 D '62.

Explanation: An article with title given above in English translation, written by A. E. Alekseev, will be found in the December 1962 issue of *Biulleten' eksperimental'noi biologii i meditsiny*, vol. 54, no. 12, pages 18-22.

Beginning Volume 21 No. 1 (April 1968) the subject headings previously used in Part C are replaced by classes based on the Universal Decimal Classification. Beginning Volume 22 No. 2 (February 1969) the Universal Decimal Classification classes also replace the subject classes formerly used in Part A. A guide to the classes used and an alphabetical index to the names of these classes is to be found before Part A of each *Monthly Index* issue.

Part D lists monographic works recently cataloged by the Library of Congress in English or in the major Western European languages (French, German, Italian, Spanish) on Russia or the Soviet Union, or by Russian or Soviet authors. Each listed monograph is followed by the Library of Congress call number and by the printed L. C. card number.

In Parts B and D the material is divided into 17 subject classes and is arranged alphabetically within each class. In addition, for the convenience of the reader, the serials listed in Part B are divided within each subject class into several subclasses. All entries are transliterated according to the usual Library of Congress system except that ligatures are omitted. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Symbols representing other libraries indicate when items are available in those libraries. Curves () around a symbol indicate that at the time of receipt the material was available in another library but not in the Library of Congress.

Cumulative author, subject, and periodical location indexes to the first four volumes of the MONTHLY INDEX are available as separate publications. Beginning with Volume 5, an author index to the monographs, and a periodical location index for the entire volume are furnished as appendices to the first two issues of the following volume.

Orders for microfilm or photostat copies of the listed items that are in the collections of the Library of Congress may be placed with the Photoduplication Service, Library of Congress, Washington, D. C. 20540

The MONTHLY INDEX OF RUSSIAN ACCESSIONS is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402

Single copy prices vary; subscription price, \$23.00 a year domestic, \$5.75 a year additional for foreign mailing.
